

PSYC 101 Flashcard App

An interactive study tool for Introduction to Psychology · CWI Summer 2026

What is it?

A free, browser-based flashcard app built from the course textbook (*Psychology in Everyday Life*, Myers & DeWall, 6th ed.). No account, no app to install — just open a link and start studying. Cards are added chapter by chapter throughout the semester, so it grows with the course.

Features at a glance

Chapter selector	Pick one chapter, several, or all — great for finals review.
Flip cards	Tap or click any card to reveal the definition.
Know it / Still learning	Mark each card so you can track what you've mastered.
Progress bar	Fills green as you work through the deck.
Topic filters	Drill into Research Methods, History, Ethics, and more within any session.
Dark mode	Automatically matches your device's light/dark setting.

How to use it

- 1 Open the app**
Go to the link below — no login needed.
- 2 Pick chapters**
Click chapter cards on the home screen (they highlight green). Select one for weekly study or all for finals.
- 3 Start studying**
Hit Start flashcards. Cards are shuffled automatically.
- 4 Flip & mark**
Tap a card to see the definition, then mark Know it ✓ or Still learning ■.
- 5 Filter by topic**
Use the chips at the top to focus on one category — e.g. just Research Methods before a quiz.
- 6 Restart anytime**
Hit Study again to reshuffle, or Choose chapters to switch topics.
